CATALOGUE

OF

Perennials, Roses
Vines, Etc.

Garden Supply Company

Ballston, Virginia.

WE TAKE PLEASURE in offering to our friends and customers, and to those who may favor us with their patronage, this catalogue for the year 1927, which includes what we believe to be the largest and most complete assortment of Hardy Perennials grown in the vicinity of Washington. Material that is purchased from us is guaranteed to be true to name and color, and free from disease, and subject to the usual nursery trade conditions. The plants are not removed from the field until the day ordered, and delivered, assuring the smallest possible injury before replanting in your flower beds, and we have often removed material in full bloom without interruption to the growth. Our material is mostly grown in beds and entirely hand-worked, which enables us to give to the individual plants that personal touch which is so necessary in the younger period of perennials.

In addition to the material quoted in this catalogue, we would like to call attention to the following features of our service:

LANDSCAPE DESIGNS AND PLANTING
GENERAL NURSERY STOCK, SUCH AS
EVERGREENS, TREES, SHRUBS,
TREE SURGERY, PRUNING, SPRAYING.

To reach our grounds, cross the Key Bridge in Georgetown and take the Wilson Boulevard from the Virginia end of the bridge to Ballston. Turn to the left where the Glebe Road crosses the Boulevard and go in that direction approximately one-half mile. You will find our place to be the nearest of all nurseries to your home.
